

Mailbox Post Paint color

Many people often ask if they can paint their own mailbox posts to keep them looking nice. The association has an approved paint color, which you need to match for your posts.

Below is the paint color mix for the mailbox posts within Plantana, Auburn Springs, and Rosewood.

This paint mix is for a full gallon of Glidden brand paint. Glidden paint can be purchased through your local Home Depot stores.

*The mailboxes themselves have a powder coat paint finish and painting them with the same paint is unfortunately not advised.
